Root: That part of a plant which enters and fixes itself in the earth and serves to support the plant in an erect position, while by means of its fibrils it imbibes nutriment for the stem, branches and fruit.

Boost: To lift or raise by pushing; to push up

Col 2: 6-8 NLT ⁶“And now, just as you accepted Christ Jesus as your Lord, you must continue to follow him. ⁷Let your roots grow down into him and let your lives be built on him. Then your faith will grow strong in the truth you were taught, and you will overflow with thankfulness. ⁸Don’t let anyone capture you with empty philosophies and high-sounding nonsense that come from human thinking and from the spiritual powers of this world, rather than from Christ.”

Luke 6:46-48 Jesus said to his disciples: “So why do you keep calling me ‘Lord, Lord!’ when you don’t do what I say? ⁴⁷I will show you what it’s like when someone comes to me, listens to my teaching, and then follows it. ⁴⁸It is like a person building a house who digs deep and lays the foundation on solid rock. When the floodwaters rise and break against that house, it stands firm because it is well built.”
